

TAG QUARTERLY PROGRESS REPORT

Date: August 14, 2018
Report Number: 104
Report Period: April - June 2018
Site: **Montana Pole and Treatment Plant**
Grant Recipient: Citizens Technical Environmental Committee (CTEC)
Technical Advisors: KirK Engineering & Natural Resources, Inc.

PROGRESS ACHIEVED

- . Technical advisors worked with Karen Ogden and David Bowers (MDEQ) on the Mt Pole Dioxin, cap design and the ESD.
- . Technical advisors worked on Dioxin removal.
- . Sponsored 5 meetings open to the public.
- . Public Presentation for the NIH/INBRE Grant with Mt Tech: Bridging the Gap: Evaluating Environmental Health Risk Perceptions for Better Community Engagement. May 1, 2018.
- . Annual Meeting May 1, 2018. Board of Directors elected. Dave Williams – President, Bill Macgregor – Vice-President, David Hutchins – Secretary, Elizabeth Erickson – Treasurer, John Ray, Kriss Douglass, Raja Nagisetty, Alysia Cox, Olivia Everett, Joe Griffin – New, Katherine Zoderow – New, Anna Chacko – New.
- . Submitted TAG Award Application for the Mt Pole Plant to EPA. April 4, 2018.
- . Met with Ed Banderob, Greeley neighborhood, concerning East Side soils issues. May 2018.
- . CTEC Technical Advisor Steve Ackerlund attended Butte Health Study/Medical monitoring meetings – Phase 2. May 15 and June 25, 2018.
- . BPOSU Draft Conceptual agreement was released by EPA and reviewed by CTEC. June 2018.
- . Extended the TAG contract time to December 2019.
- . CTEC sponsored a pavilion at the Butte Farmer's Market inviting other local environmental entities June - October.
- . Outreach material at the Dust to Dazzle Home restoration tour. June 23, 2018.
- . KBMF Butte America Radio.org - Superfund 101 Interviews. CTEC Joe Griffin & John Ray.
- . KBMF Butte America Radio.org. CTEC Superfund Reporter David Hutchins.
- . Worked with the Restore Our Creek Coalition Silver Bow Creek Coalition with input on Superfund part of discussions. Weekly.
- . Provided technical assistance to 35 members of the public at CTEC office.

CTEC Board of Directors Meeting/Co-Meetings (all board meetings are open to the public)

- . Meeting – April 10, 2018.
- . Annual Meeting – May 1, 2018.
- . Meeting – June 11, 2018 Conceptual Agreement

CTEC Public Presentations/ Events

- . Berkeley Pit – Pilot Water Treatment Plant Presentation – Mark Thompson, Mt Resources.
- . Community Follow up for Butte Superfund Priority - Albert Kelly, Doug Benevento. EPA. April 11, 2018.
- . INBRE Rollout for the public. May 1, 2018.
- . Berkeley Pit Waterfowl Plan Update - Stella Cappocia from Montana Tech and Gary Swant of Bird Montana. June 19, 2018.
- . Farmers Market Pavillion June – October. CTEC board and guests answering questions and listening to concerns from the public.
- . “Worth the Wait - The 30 Year Cleanup of One of the Nation’s Largest Superfund Sites” at the CTEC Office.
- . KBMF Butte America Radio.org - CTEC board members - Superfund 101 Interviews. Joe Griffin and John Ray. Superfund reporter - David Hutchins.

Non-CTEC meetings/tours attended by CTEC staff and/or Board:

- . BSB Health Monitoring Meeting –Phase 2. May 15 and June 25, 2018 – Steve Ackerlund
- . UAO Meeting – May 1, 2018
- . Waterfowl committee focusing on geese safety at the Butte Mine Flooding Operable Unit - Berkeley Pit.
- . Butte Natural Resource Damage Restoration Council. April 19, June 21, 2018.
- . Consent Decree public meetings, May 30, 2018 12:00 pm and 6:00pm.
- . Parrot Tailings Groundbreaking Ceremony. June 21, 2018.
- . Restore Our Creek meetings - weekly.
- . University of Mt - MT Tech Remediation/Restoration Seminar Series.
- . Butte-Silver Bow-Butte Superfund Advisory Redevelopment Trust Committee Meetings (SARTA).
- . Citizens for Labor and Environmental Justice Meetings (CLEJ).

Documents Reviewed and/or comments provided:

- . Health Study-Medical Monitoring Work Group Meeting Summary May 15, 2018 – Steve Ackerlund. CTEC Technical Advisor (attached)
- . Health Study-Medical Monitoring Work Group Meeting Summary, June 25, 2018 – Steve Ackerlund. CTEC Technical Advisor. (attached)
- . BPSOU Draft Conceptual Agreement Designs.
- . Butte Priority Soils Operable Unit Detailed Remedial Elements Work Plan. EPA June 26, 2018.

- . Other documents were reviewed at varying levels by CTEC board members or advisors when they were received.

DIFFICULTIES ENCOUNTERED:

- . Focusing on the most effective ways to spend TAG funds. Butte area is a very large and complex site.
- . Increasing public involvement.
- . Updating Technical Advisor roles.

MATERIALS PRODUCED THIS PERIOD:

- . Summary of all reports received by the CTEC office from 2010 through June 30, 2018.
- . Summary of media on Butte Superfund remediation/restoration. 2015-2018.

ACTIVITIES ANTICIPATED IN NEXT QUARTER:

- . Focus on Dioxin issues use of the Mt Pole site.
- . Focus on technical Assistance on Dioxin cleanup.
- . Focus on remaining funding vs cleanup still left
- . future use of the Mt Pole site.
- . Provide support to Dave Bowers and Karen Ogden, MDEQ Project and communications Officers for Mt Pole superfund site.
- . Focus on outreach strategy.
- . Focus on new outreach material.
- . Continue to gain Feedback from the community on Superfund questions concerns.
- . Focus on technical assistance.
- . Provide technical support on the NIH/INBRE Grant – Bridging the Gap. Health Perceptions and Superfund.
- . Focus on partnering with other local entities.
- . Provide support to EPA Community Involvement Coordinator for Butte Area Superfund sites.
- . Provide support to EPA Remedial Project Managers for Butte Area Superfund sites.
- . Focus on technical support and outreach for phase II of the Butte health study.
- . Work on strategic plan (a working document).
- . Work on Scope of Work plan (a working document).
- . Focus on storm water issues and outreach.
- . Focus on surface water issues and outreach.
- . Focus on ground water issues and outreach.
- . Continue working on identifying priorities.
- . CTEC representative for the Restore Our Creek Coalition.
- . CTEC representative on the waterfowl committee focusing on geese safety at the Butte

- Mine Flooding Operable Unit - Berkeley Pit.
- . CTEC representative for the Butte Natural Resource Damage Program.
- . CTEC representative for Citizens for Labor and Environmental Justice.
- . CTEC representative for the Pitwatch Program.
- . Provide public outreach for the Residential Soils Program.
- . Provide technical support to neighborhood groups.
- . Provide technical support to the Butte Natural Resource Damage Council.
- . Provide technical support to B-SB Superfund Advisory Board - Redevelopment Trust Fund.
- . Provide technical support to Clark Fork Watershed Education Program.
- . Provide technical support to Butte Citizens for Labor and Environmental Justice.
- . Provide technical support to Pit Watch.
- . Provide technical support to the Science Mine.
- . Provide technical support to Project Green.
- . Provide technical support to the Imagine Butte Resource Center.
- . Provide technical support to the MT Tech Remediation/Restoration Seminar Series.
- . Provide technical support to the MT Tech Biology/Chemistry research Departments.
- . Provide technical support to the Native Plant Program at Mt Tech.
- . Provide technical support to the Butte Radio KBMF 102.5.
- . Provide technical support to the Montana Public Radio.
- . Provide technical support to the Montana Standard newspaper.
- . Provide technical support to the local news stations.

COLUMNIST'S COMMENTARY Commentary: Scott Pruitt and the problem of environmental distrust By John Copeland Nagle, Chicago Tribune May 2, 2018
Embattled Environmental Protection Agency administrator Scott Pruitt wants to prevent his agency from using "secret science" to justify environmental regulation. A worthy goal, his critics say, but they don't trust him or the way he wants to achieve it. Which is ironic, for Pruitt's plan isn't really about science. It's about trust. In environmental laws, such as the Clean Air Act, Congress ...

Superfund 101 with Nora Saks June 29, 2018

Nora Saks is a journalist with Montana Public Radio, in this episode we talk about living in Butte and reporting on Superfund. Nora is currently working on a new podcast about Butte which you can find more info on.[READ MORE](#)

Superfund 101: Susan Dunlap June 26, 2018

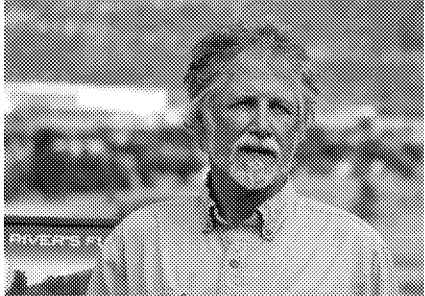

Susan Dunlap has been the environmental reporter for The Montana Standard since 2015, reporting on a wide range of issues affecting the ecosystems in southwest Montana. In this recording Susan talks about what brought her to Butte and how she approaches the story of this city's cleanup.[READ MORE](#)

Superfund 101: John Ray and The Health Study June 26, 2018

Dr. John Ray is a professor at Montana Tech and chairman of Citizens for Labor and Environmental Justice (CLEJ). In this recording, Dr. Ray gives his thoughts on the EPA mandated health study and where he believes it falls short in determining the overall health of the community in Butte.[READ MORE](#)

Superfund 101: Joe Griffin and Stormwater Ponds [May 30, 2018](#)

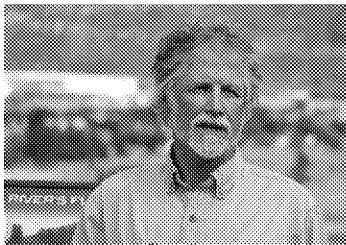

Stormwater is the biggest issue facing the Butte Priority Soils Operable Unit. Copper running off The Hill during spring melt and storm events contaminates water downstream of Butte, and even in low quantities can threaten aquatic life. Before these contaminants reach the restored Silver Bow Creek, they for the most part run into the historic channel running from Texas Avenue to the slag wall canyon near I-90. According to Joe, vegetated stormwater retention ponds in this area would greatly reduce the copper that enters the creek.[READ MORE](#)

Superfund 101: Northey Tretheway and The Restore Our Creek Coalition [May 22, 2018](#)

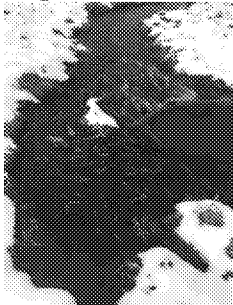

Northey Tretheway talks about what the Restore Our Creek Coalition has accomplished in it's short tenure as a community organization, and what they want to see out of the still secret Consent Decree negotiations: a restored Silver Bow Creek.

Superfund 101: Joe Griffin and the Sub Drain May 15, 2018

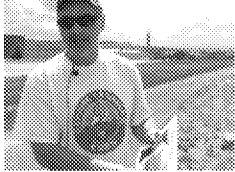

Joe Griffin returns to the KBMF studio to talk about contamination sources near Silver Bow Creek and the processes with which they are currently dealt with. The sub drain underneath the historic creek channel from Texas Avenue to the slag wall canyon has been the subject of much scrutiny, but Joe says the question is not *if* the drain is working, but is it working well enough?

Superfund 101: Evan Norman and CFWEP's Beaver Mimicry Project May 14, 2018

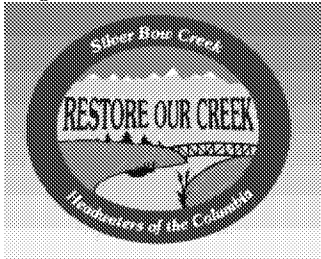

Evan Norman with the Clark Fork Watershed Education Program Talks about the benefits that beaver dams have on streams and CFWEP's attempt to mimic these effects in the watershed around Butte. Find out more by visiting the beaver mimicry site [here](#).

Superfund 101: Pat Cunneen and the Parrot Tailings May 14, 2018

Pat Cunneen, environmental scientist for the Butte Natural Resource Damage Restoration Council, dives deep into the Parrot Tailings in this two part series for Superfund 101. In Part 1, we talk about the history of the site from a smelter in the late 1800's, to it's present day use as baseball field and home to the Butte Silver Bow county shops. In Part 2, Pat explains why the tailings need to go and the plan for removal.

Superfund 101 with Fritz Daly May 08, 2018

Fritz Daly has been in the thick of Butte's environmental issues for the last 40 years. Many credit his unrelenting watchfulness with changing how the community interacts with policy makers and responsible parties. In this episode of Superfund 101, Fritz lays out why paying attention to how Butte has been treated in the past will have an effect on the quality of cleanup we receive in the future.

Superfund 101 with Robert Pal April 12, 2018

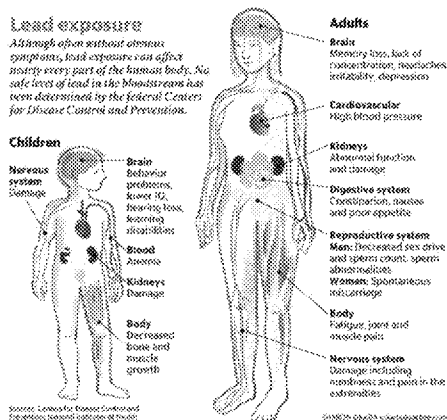

Dr. Robert Pal is the Director of Restoration at Montana Tech in the Chemistry and Biology department. Originally from Hungary, Dr. Pal has an extensive background in ecology, biology, botany and phytosociology (the study of plant communities). Since coming to Butte, Robert has worked closely with the BNRC and Butte-Silver Bow County to develop restoration plans and seed mixtures in what he calls the "novel landscape" here on the Butte hill.

Superfund 101 with Mark Thompson April 11, 2018

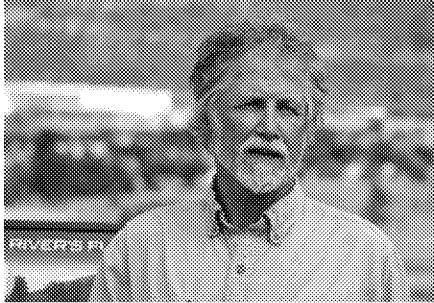

Mark Thompson is Montana Resources' Vice President of Environmental Affairs. In this episode he discusses current mining operations in the Continental Pit and how Montana Resources and BP/ARCO interact with Superfund operations in the the Butte Mine Flooding Operable Unit. Mark also walks us through an outline of the proposed pumping and treating of contaminated water from the Berkeley Pit and the Yankee Doodle Tailings Pond.

Superfund 101 with Katie Hailer February 28, 2018

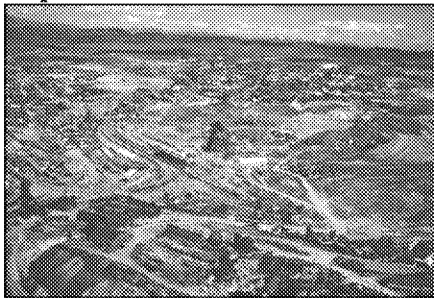

KBMF environmental reporter Ted McDermott talks to Dr. Katie Hailer about a recent study she authored entitled *Assessing Human Metal Accumulation near an Urban Superfund Site*. Dr. Hailer is a professor of Organic Chemistry at Montana Tech, in her paper she studied lead levels in the blood and hair of Butte residents compared to those of Bozeman.

Superfund 101 with Joe Griffin February 26, 2018

Joe Griffin is a retired hydro-geologist and member of Citizens Technical Environmental Committee (CTEC). Since retiring from the Montana Department of Environmental Quality (DEQ) Joe has worked to monitor and chart data concerning contaminants in Silver Bow and Blacktail Creeks. Joe's work is primarily concerned with the water data from Butte Area 1, or upper Silver Bow Creek and the alluvial aquifer near the soon to be removed Parrot Tailings.

Superfund 101 with Eric Hassler February 12, 2018

Eric Hassler is the Superfund Operations and Maintenance Manager for Butte Silver Bow. Eric oversees all city duties related to Superfund and in this three part series on Superfund 101 we talk about the Residential Metals Abatement Program (RMAP), the Butte Reclamation Evaluation System (BRES) and stormwater operations in the Butte Priority Soils Operable Unit.
